What to Expect on your First Visit at Downtown Core Chiropractic & Acupuncture Centre

You may be coming to see the chiropractor for a check-up, a specific injury, or something more complex. In order to assess your health status and formulate a diagnosis the chiropractor will take a detailed history, and will examine you as well. If you are not already wearing loose fitting clothing, you may be asked to change into a gown or shorts for the examination.

The examination may include, but may not be limited to: a postural check, orthopaedic tests, neurological tests, muscle and joint testing. Occasionally, some of these tests may provoke pain during or after the examination.

I understand that these tests are a necessary part of my care and consent to examination by the chiropractor.

Date _____ **Patient initials** _____ **Chiropractor initials** _____

Further testing, if not already performed, may be recommended such as blood tests, or imaging (x-rays, ultrasound, etc).

After completing the assessment, the chiropractor will discuss her findings and diagnosis with you as well as treatment options. You are always encouraged to ask questions so that you have a good understanding of what is happening with your body.

If you wish to proceed with care, and the chiropractor does not need to gather any further information, you will receive your first treatment at the end of the initial visit.

Your initial visit, including treatment may take 45-60 minutes. Please allow enough time for your full visit when you schedule your appointment.

Dr Doris Mertins ☐ **Dr Darcie Sinclair** ☐ **Dr Roberta Da Re** ☐

Royal Bank Plaza, North Tower, PO Box 134, 200 Bay Street, Toronto, ON M5J 2J3
